

EGG DONATION PROGRAMME

FIRST CONSULTATION Cost €200

This will include careful review of your medical history, a full medical examination and a pelvic ultrasound. These are essential steps to ensure that you are suitable for the treatment. Remember that your safety is a primary concern. Please bring any previous investigations as anything done before can be taken into account in order to avoid repetition of tests.

FOLLOWING TREATMENT Once you decide to proceed we organize any additional medical or blood tests required .Our price lists for bloods and investigations is available under satellite services price list.

Once all the results are ready you will have a Skype consultation with Institute Bernabeu.

You will be assigned a co-ordinator and a doctor. The same team will look after you throughout your treatment. This is one of the reasons that made us choose this particular clinic as we feel that a personalized treatment is a better treatment. Once your treatment protocol is assigned we will look after your preparation until the day you need to travel to Spain. We will continue to support you on your return and provide an early pregnancy scan if you are successful.

FEMPLU COST: instead of charging a fixed package you will pay only for what you need.

EACH SCAN IS PRICED AT 100E and again the full price list is available under satellite price list. Most patients will require 2 or 3 scans prior to travelling.

INSTITUTE BERNABEU TREATMENT €7000 This cost includes everything required in your treatment overseas. For example if ICSI is required at the time of treatment no extra cost are applied.
